

A person's silhouette is visible in a steamy bathroom, with the steam creating a soft, hazy atmosphere. The person appears to be standing in front of a shower or bathtub, with their head and shoulders visible against the rising steam.

EMBRACE
THE POWER
OF STEAM

STEAMIST®
RELAX. RESTORE. RENEW.

RELAX. RESTORE. RENEW.

Steam soothes sore muscles and promotes flexibility,
while releasing tension from a hard day.

Steam also helps you fall asleep faster, sleep more soundly
and wake feeling refreshed and ready for a new day.

Steam fuels blood flow throughout the body
to detoxify and release impurities. It provides relief from allergies,
asthma and other respiratory problems as well as
skin problems such as eczema and acne.

Steam hydrates dry skin with warm, penetrating moisture.
Open pores bring nutrients to the skin's surface enhancing
collagen production, creating healthy, smooth skin
while lessening the effects of aging.

TOTAL SENSE™

Indulge in the luxurious embrace of steam.

Enhance the experience with your choice of spa options:

AromaSense™

ChromaSense™

AudioSense™

ShowerSense™

AromaSense™

At your control, fragrant essential oils are automatically released into the steam shower, enriching your experience with our pleasing “Restore, Renew, Relax or Energize” blends or the soothing “Respiratory” scent for your air passages.

respiratory system

STEAMIST

ChromaSense™

With color you can create mood lighting as well as take advantage of the benefits of chromatherapy. A single overhead fixture produces not only white light, but six additional colors that can calm, energize or relax the mind.

Total Sense™ Home Spa Collection

AudioSense™

Fill the shower with favorite music or audio content
from your smartphone, iPod, iPad or
any Bluetooth enabled source.

Steamist transmits sound through exposed speakers, or
“invisible” speakers mounted out-of-sight behind the wall.

Total Sense™ Home Spa Collection

ShowerSense™

Optimize your experience by selecting from two pre-programmable shower temperatures, using up to three water outlets. Steamist's all-in-one TSC-450 control eliminates the need for separate controls for each outlet.

A STEAMIST HOME SPA IS SIMPLE.

The basics of our steam system include:

TSG-7

Steam Generator

Our compact generators can be installed in a vanity, a closet, an insulated attic or the basement. Virtually maintenance-free, it's the heart of your steam shower experience. All generators are UL Listed.

TSG Generators offer:

SteadySteam™

Continuously modulates steam output for total comfort, without sudden temperature spikes.

InstaMist™

Provides quick-response steam in about a minute.

TSC-450 Touchscreen Control

Installed inside your steam shower, the TSC-450 control lets you tailor your steam experience to personal preferences. Two user profiles can be programmed, with individual temperature and duration preferences, as well as settings for spa options.

Using the mySteamist™ mobile app you can activate either user profile within your home WiFi network.

And Steamist temperature sensor technology (patent pending) ensures you the most stable and comfortable steambathing temperature.

Steamhead

The 3199 Steamhead is included with the steam control. It delivers even, soothing steam without “hot” or “cold” spots.

Your Steamist system should be installed by a trained professional. Visit steamist.com to find a dealer near you.

At 4.5" x 4.5", the TSC-450 features finger-light touchscreen operation. The ultra-thin profile extends 0.4" from the wall with no recessed mounting.

STEAMIST®

RELAX. RESTORE. RENEW.
